WELCOME TO THE FUTURE
The ada mission

Germany, the home of inventors and world market leaders, is in danger of losing touch with the future. Technological progress and global complexity are dramatically increasing the pace of developments in companies and in markets around the world.

We must reinvent the process of learning if the country of the economic miracle is to remain the world’s leading exporter in years and decades to come. This is why we created ada, a new kind of platform never seen before. A national, digital education offensive for Germany’s companies that ensures involvement and that is inspiring and effective.

In this way, the land of poets and thinkers will become a country of 80 million digital pioneers. And tomorrow’s leading export nation – on the road to an Economic Miracle 4.0!
PERSONNEL DEVELOPMENT 4.0
The Fellowship Programme

- Participation subject to nomination of a partner
- Personal development of future skills, value-enhancing transfer for your own company & social engagement for an Economic Miracle 4.0

TARGET GROUP

ada is designed to appeal to everyone who wants to embark on the greatest adventure of our era

The target group:

- well-educated, career-focused
- economically successful
- 35 years of age on average (modern, young middle)
- high need of orientation, information and qualification
- extremely tech and IT savvy
- culturally and geographically mobile – and in search of new solutions
- determined, flexible and tolerant
MAGAZIN CONCEPT

Three main levels determine the content approach for the ada reporting

**ada & “The Now”**

*Where do we stand? How are technologies changing the way we do business, the way we work and the way we live? How can we proactively shape technologies to our own advantage?*

**ada & “The Soon”**

*Where are we headed? What are the technological megatrends and what opportunities do they present?*

**ada & “The You”**

*What does it mean for me and my life?*
MAGAZINE IMPRESSIONS
A high-quality magazine with long-term value added content – both visually and haptically

»Künstliche Intelligenz macht immer wieder überraschende Dinge!«

We adopt different perspectives and create unusual encounters …

We refrain from sensationalist headlines. Instead, we provide an introduction to the topics using realistic, categorizing teasers and quotes.

We transcend borders and transfer reading habits between mediums. People feel like they want to “swipe” our pictures.

We give even abstract topics a light feel and render complex subjects understandable and well-structured.

»Die abendländische Zivilisation wurde von den Mönchen des Mittelalters geschaffen. Wenn mich also jemand fragt, wie man produktiv --- arbeitet, habe ich eigentlich nur einen Ratschlag: einfach mal die Klappe halten«.

Es lebe die neue Tech-Wirtschaft

For all content formats and premium positions, the closing date is two weeks before the closing date for regular ads and positions. Production costs do not qualify for discounts or agency commission.
NEWSLETTER
The “ada-Letter”

The “ada-Letter” is a weekly briefing format with inspiring, interpretative and entertaining ada stories. It is not so much a “news”letter as a venue for new thoughts and ideas.

Every Sunday, the “ada-Letter” is your direct line to more than 45,000 people who are digital-savvy and stake their claim to shaping tomorrow’s world.

The briefing always has a core theme. This longer piece is supplemented by additional sections with shorter curated topics (e.g. “Serenity – what surprised us; what happened elsewhere – stories from other parts of the world”).

Bookable formats from 2,000 € gross:

Content breaking ads in the editorial – natively incorporated in the newsletter
PODCAST
The weekly audio format

- The ada podcast
  - A topic is discussed by two ada presenters and looked at in greater depth by experts, CEOs, researchers and start-up founders.
  - Published in seasons (each with a duration of 6 weeks)
  - Broadcasted weekly (on Fridays)
  - An average 10,000 downloads per episode
  - Available on the ada website, ada newsletter, spotify, iTunes & soundcloud
  - Bookable with Pre-stream ad (up to 30 secs) before the podcast for 4,400 € gross (incl. 600 € production costs*)

* Production costs do not qualify for discounts or agency commission
